

Make the Smart Choice for your data

Ensuring your data collection is GDPR compliant,
safe and secure.

Create, Distribute, and Analyse surveys using a powerful, flexible, and secure platform

SmartSurvey is the leading UK-based supplier of online survey solutions. Our easy-to-use software is flexible, powerful, and all data is stored in the UK. SmartSurvey makes it easy.

Create

Create responsive surveys, questionnaires or forms from scratch or use one of our huge library of templates. Brand your surveys' look and feel with custom themes and URLs.

Collect

Reach your audience anywhere and at any time via a range of channels such as Email, SMS, social media, web links, embed codes and pop-ups to maximise your responses.

Analyse

Our reporting tools make it easy to turn data into insight. View real-time reports and charts. Create custom filters. Schedule alert emails for new responses and manually export data.

UK-Based and GDPR Compliant

Security is our most important feature, and we take it seriously. All your data is stored in the UK, including backups, and all development and support functions are in the UK so you and your respondents can have complete confidence your data will not be transferred outside the UK. We're ISO27001 and Cyber Essentials Plus certified.

Our clients use SmartSurvey for:

- Public Consultations
